Professional Summary

Software Engineering student at FIAP and intern at Genova, developing web applications, integrations, and process automations. Experience with TypeScript, React, Supabase, and n8n, alongside personal projects in C++ and Go. Seeking backend engineering opportunities, with a particular interest in performance, low-latency systems, networking, and debugging.

Professional Experience

Software Development Intern | Genova

Jul 2026 - Present

- Develop and maintain web applications, integrations, and dashboards based on operational needs, helping teams reduce manual work and access information.
- Implement interfaces, database operations, and business logic using React, TypeScript, Supabase, n8n, APIs, and AI tools.
- Improve application performance and access control, and investigate and fix issues encountered during use.

Selected Projects

LARP

Low-latency screen streaming project in C++23 for Linux.

- Built UDP frame transport, PipeWire screen capture, H.264 encoding and decoding with FFmpeg, and live video rendering with SDL3.
- Implemented adaptive bitrate using receiver feedback, packet-loss handling, stale-frame expiry, and authenticated session recovery.
- Verified behavior with unit and integration tests, sanitizer checks, two-machine streaming tests, and process memory measurements.

Exchange of Currencies

Real-time GBP/USD currency conversion application.

- Built a typed Next.js interface, integrated external financial data APIs, and implemented live updates via WebSockets.
- Created reusable components and interface tests with Vitest.

Technical Skills

Backend & Systems: C++, Go, C, Node.js, Express, REST APIs, WebSockets, JWT

Databases & Automation: SQL, MongoDB, Supabase, n8n

Frontend: TypeScript, JavaScript, React, Next.js, HTML, CSS, Mantine

Tools & Testing: Linux, Docker, Git, GitHub, Postman, Cypress, Vitest

Languages: Portuguese (native), English (fluent)

Education

FIAP | Bachelor's Degree in Software Engineering | 2024 - 2027 (expected)

FIAP School | Technical High School in Web Development | 2021 - 2023
